B.TECH

4th Semester Regular Examination-April-May 2019**BMEPC4040 MECHANICAL MEASUREMENT & METROLOGY**

(Regulations 2017) MECH ENGG.

Time : 3 Hours

Maximum : 100 Marks

Answer ALL Questions

The figures in the right hand margin indicate marks.

PART – A: (Multiple Choice Questions) 10 x 2=20 MarkQ.1. Answer ALL Questions.

- | | | |
|---|--|---------|
| a | Surface roughness of a sample is measured by following instrument?
a) Profilometer b) Vernier caliper c) Micrometer d) Autocollimator | CO4 PO1 |
| b | Pitot tube is used
a) to measure fluid temperature b) to measure fluid flow velocity c) to measure rotational speed of shaft or disc d) to measure the temperature of a surface | CO3 PO1 |
| c | Which of the following instrument is used for the measurement of temperature?
a) Thermocouple b) Pyrometer c) Thermometer d) All of the above | CO3 PO1 |
| d | Venturi effect is found
a) during fluid flow b) during heat transfer c) both a and b d) none of the above | CO3 PO1 |
| e | Repeatability of the instrument with respect to a given fixed input is:
a) accuracy b) precision c) resolution d) sensitivity | CO1 PO1 |
| f | Amplitude ratio of first order instrument :
a) can be zero b) is greater than zero c) lies between zero and one d) is greater than one | CO1 PO1 |
| g | LVDT works on principle.
a) variable resistance b) variable self-induction c) variable mutual induction d) variable capacitance | CO2 PO1 |
| h | A solar cell is:
a) photo-voltaic transducer b) photo-emissive transducer c) photo-conductive transducer d) photo-resistive transducer | CO2 PO1 |
| i | The foundation for all dimensional measurements is the
a) datum plane b) datum line c) datum point d) geometry of work piece | CO1 PO1 |
| j | Amplifier is used for
a) to increase the velocity of fluid flow c) to reduce the power of a signal
b) to increase the power of a signal d) both b and c | CO2 PO1 |

PART – B: (Short Answer Questions) 10x2 = 20 MarksQ.2. Answer ALL questions

- | | | |
|---|--|---------|
| a | What is resolution ? | CO1 PO1 |
| b | Explain the principle of pitot tube. | CO3 PO2 |
| c | What is the significance of calibration of slip gauges? | CO4 PO1 |
| d | Explain the following methods of quantifying surface roughness: (a) Rz value, (b) RMS value, and (c) Ra value. | CO4 PO2 |
| e | Explain about the photo-electric transducer. | CO2 PO1 |
| f | Describe straightness, flatness and roundness. | CO4 PO2 |
| g | Explain about tachometer and tacho-generator. | CO3 PO2 |
| h | Explain the principle of optical pyrometer. | CO3 PO2 |
| i | Describe about Cathode Ray Oscilloscope. | CO2 PO2 |
| j | Discuss on gauge factor in strain gauges. | CO3 PO1 |

**PART – C: (Long Answer Questions) 4x 15= 60 Marks**Answer ALL questions**Q.3**

- | | | | |
|---|--|---|---------|
| a | Explain about accuracy and precision in details. | 8 | CO1 PO2 |
| b | Describe different types of errors in measurements with neat sketch. | 7 | CO1 PO2 |

OR

- | | | | |
|---|---|---|---------|
| c | Explain about impedance loading and matching. | 8 | CO1 PO1 |
| d | Explain in detail about system compensation. | 7 | CO1 PO2 |

Q.4

- | | | | |
|---|---|---|---------|
| a | Enumerate the advantages of electrical transducer elements. | 8 | CO2 PO2 |
| b | Explain about potentiometer devices. | 7 | CO2 PO2 |

OR

- | | | | |
|---|---|---|---------|
| c | Explain the principle of following transducer with neat sketches
a) Sliding –Contact device b) Capacitive type torque – meter. | 8 | CO2 PO2 |
| d | Explain the working of a piezoelectric transducer for pressure measurement. | 7 | CO2 PO2 |

Q.5

- | | | | |
|---|--|---|---------|
| a | Describe about electrical strain gauges. | 8 | CO3 PO2 |
| b | Derive an expression for the gauge factor. | 7 | CO3 PO1 |

OR

- | | | | |
|---|---|---|---------|
| c | What is pyrometry? Explain in detail the theory of pyrometry. | 8 | CO3 PO2 |
| d | With a neat sketch, explain the working of venturi meter. | 7 | CO3 PO1 |

Q.6

- | | | | |
|---|---|---|---------|
| a | State and explain Taylor's principle of gauge design. | 8 | CO4 PO1 |
| b | Explain why hole basis system is generally preferred. | 7 | CO4 PO2 |

OR

- | | | | |
|---|--|--------|---------|
| c | Discuss different methods of measurement of gear tooth thickness and comment on their accuracy. | | CO4 PO1 |
| d | A shaft is manufactured within the specified limits of 30.02 and 29.98 mm. Find the high and low limits of the bush to give a maximum clearance of 0.10 mm and minimum clearance of 0.02 mm. | 8
7 | CO4 PO2 |
