B. B. A (Second Semester) Examinations, August – 2021													
20BBA 202 - Business Economics													
Time: 2 hrs Maximum: 50 Marks													
	The figures in the right hand margin indicate marks.												
PART – A: (Multiple Choice Questions) $(1 \times 10 = 10 \text{ Marks})$													
O 1 Answer ALL questions													
-	<u>Q. 1 Answer ALL questions</u> a Who is called as the father of economics'?												
a			conom	nes		(::)	Б	т	0				
	(i) Adam Sr					(ii)	U		Grant	-			
		ynard Keyr				(iv)		muel					
b.	Macroeconomics is	•			that d								
	(i) households,	firms, dema	and an	d	(ii)	fir	ms, g	overn	ment,	free-r	narket	, and	regulations
	supply	firma aorra			Gu		no of	tha ak					
	(iii) households, and external sector	innis, gove	rnmen	IL	(iv)) 110	one of	the at	bove				
c.	If demand is given b	y D = 1000)-P, an	nd th	e sup	oly equ	uation	is giv	ven by	S = 1	00+4]	P, pric	e should be:
	(i) $P=160$	-				(ii)	P= 1	.60	•			-	
	(iii) P=180					(iv)	P=1						
d.	What are Capital go	ods?				()		00					
	(i)Goods used for		on in	the	(ii)	Goods	and	servi	ces tl	nat ai	e cor	isume	d fully when
production process purchased by the													
(iii)Goods such as tools, machinery, etc					(iv	(iv)None of the above							
	which are used to c	reate final	consu	mer									
	goods	1 .											
e.	The law of demand					• • • •			1				
(i)price and quantity demanded are (ii)price and quantity demanded are directly related								related					
	inversely related (iii)the larger the number of buyers in a (iv)consumers will buy more of a given product at high									oduct at high			
market, the lower will be product price prices than they will at low prices								ouder at high					
f.	The long run is a per	riod of time	e in wh	nich									
(i)the quantities of all inputs can be (ii)the firm is able to maximise total prof								ofit					
varied. (iii)the firm may want to build a bigger (iv)economic efficiency is achieved													
	plant, but cannot do			ggei	(\mathbf{IV})	econo	inic ei	nciei	icy is	acmev	veu		
g.	Revenue of a busine												
0	(i)All credit sales				(ii).	All cas	sh sale	s and	credi	t sales			
	(iii)All cash sales					(iv)All purchases							
h. Monopolistic market is mostly characterized by which of the following:								<u>;</u> :					
	(i)More buyers an			are			•		lesser	seller	rs are	involv	red in trade of
	involved in trade of identical goods,					identical goods,							
	(iii)More buyers an						-		d more	e selle	ers are	involv	ved in trade of
	involved in trade of		ai goo	ods,	not	identi	cal go	ods					
i.	P/V ratio means the					□!_ 1			1				
	(i)Contribution to to	tal cost			(11)	Fixed	cost to	o total	sale				

(iii)Contribution to total sale

(iv)Fixed cost to total cost

j.	Breakeven point means:	
	(i)A point Where profit is more	(ii)A point Where profit is less
	(iii)A point Where loss is more	(iv)A point Where no loss or no profit

PART – B: (Short Answer Questions) (2 x 5=10 Marks)

Q.2. Answer ALL questions

- a. Write down the definition of economics?
- b. Describe the Elasticity of supply?
- c. What do you mean by monopoly market?
- d. Explain the characteristics of perfect competition market?
- e. Explain about negative return to scale?

PART – C: (Long Answer Questions) (6 x 5 = 30 Marks)

Answer ANY FIVE questions									
3.	Write down the basic problems of economics?								
4.	Explain about the characteristics of human wants?								
5.	What is Law of Demand Explain with schedule and diagram?								
6.	What is meaning of Supply? Explain the elasticity of supply and its types?								
7.	Explain about law of variable proportion with schedule and diagram								
8.	The following particulars are relating to a product of a company: Selling Price per unit Rs.50, Variable Cost per unit Rs.30/- Fixed Cost Rs. 30,000 Find out the following:								
	a) P/V Ratio								
	b) BEP sales								
	c) Sales required to earn a	a profit of Rs.10,000							
9.	From the following inform	e following information find out the fixed cost by using Least Square Method:							
	Month	Production in units	Semi variable cost in Rs						
	February	80	170						
	March	150	310						

10. Write down about the long run average cost curve and explain it with diagram?
