| <u>Answ</u> 2. a.   | er ANY FIVE questions  Explain about principle and operation of Fed-batch reactor.   | Marks 5               | CO#                                    | Blooms<br>Level<br>K2              |  |  |
| Answ<br>2. a.<br>b.   | er ANY FIVE questions  Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.   | Marks 5 5             | CO# CO1                                | Blooms<br>Level<br>K2<br>K2        |  |  |
| Answ 2. a. b. 3.a.  | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  | Marks 5 5 5           | CO# CO1 CO1                            | Blooms<br>Level<br>K2              |  |  |
| Answ 2. a. b. 3.a. b.   | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  | Marks 5 5 5 5         | CO# CO1 CO1 CO1 CO2                    | Blooms Level K2 K2 K2 K2 K3        |  |  |
| Answ 2. a. b. 3.a. b. 4. a.                                     | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  Explain about industrial process.   | Marks 5 5 5 5 5       | CO# CO1 CO1 CO2 CO2                    | Blooms Level K2 K2 K2              |  |  |
| Answ 2. a. b. 3.a. b. 4. a. b.                                  | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  Explain about industrial process.  Why are industrial processes important?  | Marks 5 5 5 5 5 5     | CO# CO1 CO1 CO1 CO2                    | Blooms Level K2 K2 K2 K2 K2 K3     |  |  |
| Answ 2. a. b. 3.a. b. 4. a. b. 5.a.                             | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  Explain about industrial process.  Why are industrial processes important?  What are different Enzyme classes?  | Marks 5 5 5 5 5 5 5   | CO#  CO1  CO1  CO2  CO2  CO2  CO2  CO3 | Blooms Level K2 K2 K2 K2 K3 K2 K3  |  |  |
| Answ 2. a. b. 3.a. b. 4. a. b.                                  | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  Explain about industrial process.  Why are industrial processes important?  | Marks 5 5 5 5 5 5     | CO# CO1 CO1 CO2 CO2 CO2                | Blooms Level K2 K2 K2 K2 K3 K3     |  |  |
| Answ 2. a. b. 3.a. b. 4. a. b. 5.a.                             | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  Explain about industrial process.  Why are industrial processes important?  What are different Enzyme classes?  Explain Industrial applications of microbial enzymes with reference to Dairy,   | Marks 5 5 5 5 5 5 5   | CO#  CO1  CO1  CO2  CO2  CO2  CO2  CO3 | Blooms Level K2 K2 K2 K2 K3 K2 K3  |  |  |
| Answ 2. a. b. 3.a. b. 4. a. b. 5.a. b.                          | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  Explain about industrial process.  Why are industrial processes important?  What are different Enzyme classes?  Explain Industrial applications of microbial enzymes with reference to Dairy, Baking and Cosmetics Industry.  | Marks 5 5 5 5 5 5 5 5 | CO#  CO1  CO1  CO2  CO2  CO2  CO3  CO3 | Blooms Level K2 K2 K2 K3 K4 K3 K1  |  |  |
| Answ 2. a. b. 3.a. b. 4. a. b. 5.a. b.                          | Explain about principle and operation of Fed-batch reactor.  Discuss different applications of Fed-batch reactor.  Give dental derivation of Michaelis-Menten equation.  Explain different factors which can influence the Michaelis-Menten constant.  Explain about industrial process.  Why are industrial processes important?  What are different Enzyme classes?  Explain Industrial applications of microbial enzymes with reference to Dairy, Baking and Cosmetics Industry.  Explain the advantages and disadvantages of Membrane Bioreactor Technology. | Marks 5 5 5 5 5 5 5 5 | CO#  CO1  CO1  CO2  CO2  CO2  CO3  CO3 | Blooms Level K2 K2 K2 K3 K3 K1     |  |  |

b. What are different approaches for measuring bacterial growth?
5 CO5 K2
8. a. Explain Industrial applications of microbial enzymes with reference to Dairy, 5 CO5 K1
Baking and Cosmetics Industry.
b. Differentiate between total mass balance and component mass balance.
5 CO5 K1
